

POLITICAL GOT OUT THE VOTES.

Magnificent Showing Made by the Grand Old Republican Party When the People Became Interested.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Dec. 2.—[Exclusive Dispatch.] The following table gives the strictly official vote for President Roosevelt and Judge Parker in the nineteen States from which official returns have been received, together with the vote for McKinley and Bryan in 1900 in the same States:

State Roosevelt Parker McKinley Bryan
California 262,224 262,724 262,724 232,982
Illinois 112,422 112,422 112,422 112,422
Michigan 112,422 112,422 112,422 112,422
Minnesota 112,422 112,422 112,422 112,422
Missouri 112,422 112,422 112,422 112,422
Oregon 112,422 112,422 112,422 112,422
Wisconsin 112,422 112,422 112,422 112,422
Total 1,478,112 1,478,112 1,478,112 1,478,112

The McKinley vote in 1900 was 307,252. If the Roosevelt vote increases in the twenty-five States yet to be officially counted at the rate it increased in the above nineteen, it will be 7,671,000. The Bryan vote in 1900 was 6,358,132.

If the Parker vote decreases in twenty-four States in the nineteen, it will be 4,785,000. But as the States heard from include those of the greatest Roosevelt gain and Parker lost, it is probable that the Roosevelt vote, when all returns are in, will be approximately 7,500,000, and the Parker vote approximately 5,000,000.

The Roosevelt durability is thus about 2,500,000, or three times as large as that given by Presidential candidates before.

The total vote of the two principal parties will be 12,500,000, against 12,500,000 in 1900.

THE SOCIALIST VOTE.

The Socialist vote in the above nineteen States is 197,000; the Prohibition vote, 150,000, and the Populist vote, 5,000. From these figures it appears that the total Debs vote will not reach the 600,000 claimed for it, while the Prohibition vote will not be much larger than four years ago.

The total vote this year does not promise to be much in excess of 12,500,000, against 12,500,000 in 1900 and 12,500,000 in 1896.

THE SOUTHERN END.

In Virginia, the vote has fallen off, and in Maryland, where the killing-off, despite the energy of the avans, was 18 per cent, the decreases are due to the new suffrage arrangements which discourage voting. In other Southern States the election has become so much of a farce that the size of the vote does not specially signify. But in such States as Missouri, Kansas, Nebraska, Washington, Ohio, Illinois, Wisconsin, etc., the startling decrease

is quite apparent.

THE NINETEEN.

The South is not sectional. It is testing or present attitude, and we are told that which means the making up of the South and the rest of the country or any other section of the Union. The Southern people, I believe, recognize the fact that the Roosevelt administration has been overwhelmingly endorsed at the recent election, and their duty as upright and fair Americans by participation, seek to obstruct and unfairly embarrass the administration. I believe such is the predominant sentiment of the people of the South.

MRS. CHADWICK HAD A PULL.

OWERFUL AID SAVED THE DAY FOR HER, SAYS LAWYER.

Soon After She Visited Attorneys of One of the Richest Men in the Country She Was Able to Effect Settlement With Newton-Cleveland Bankruptcy Proceedings.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Dec. 2.—While it has officially announced that one of its largest creditors—one whose name brought up the name of Mrs. Schenck's husband—would be satisfactorily settled, there was no diminution interest today in the case of Mrs. Annie L. Chadwick, the Cleveland woman whose financial affairs have been in a state of suspense since the claim of Herbert D. Newton, of Boston, Mass., for nearly \$200,000, which he asserted had been exacted from her through various contractors according to the statement of Mrs. Chadwick's attorney, was only an incident. Other debts, however, were still outstanding four times that amount, they said, and for all they know may total a hundred times the sum named by the attorney.

Many of the claims against her, the attorneys say, have no basis in fact, at least in the sense that they will stand trial.

Up to now, however, she had been unable to meet them all, and the attorney's statement was made by George O'Day, of local counsel for Newton.

Mr. Chadwick obtained the \$200,000 he paid to his wife, it is known, that she spent considerable time in the Wall Street district during and while she was in the office of a firm of attorneys which recently has arisen as legal representatives for one of the country's most prominent New York financiers and commercial men have it is announced by the Head, organized the First Night and Day Banking Deposit Company. The names of men prominent in the business and social world appear on the Organization Committee, which the capital of \$100,000 has been subscribed. The concern also possessed of many millions of dollars worth of property in Florida, it is said, and the sum required for its support after her death, it is known, was found among Mrs. Schenck's papers after her death.

UNIQUE AS USEFUL.

New York Bank Which Will Be Open Shortly Will Do Business Night and Day.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Dec. 2.—Impressed by the need for a bank which would be open night and day, a prominent New York lawyer has obtained a charter for the First Night and Day Banking Deposit Company. The names of men prominent in the business and social world appear on the Organization Committee, which the capital of \$100,000 has been subscribed. The concern also will have a working surplus of \$200,000.

The plan, in which many travelers or weekenders find difficulty because they are unable to draw cash in cases of emergency suggested the organization of the First Night and Day Banking Deposit Company.

Another statement made in connection with the case today was that a number of years ago Mrs. Chadwick, who was a woman who died several years ago, possessed of many millions of dollars worth of property in Florida, it is said, and the sum required for its support after her death, it is known, was found among Mrs. Schenck's papers after her death.

restaurants and the theater district. It will be conducted on the lines of a State bank.

There will always be on hand a large sum of funds, and on the books it will have at least two forces of clerks. It will receive deposits at any time, and be prepared to cash checks for any amount, and to cash bills when the bills of paper are presented.

Owing to the heavy expense of the institution necessitated by the employment of clerks and force, the bank will pay no interest on deposits.

THE GREAT WAR.

Office are beginning to prepare themselves for the inevitable. Golden Hill and Lisotti Hill are higher, and dominate 203 Meter Hill, but the officials say that if the Japanese succeed in mounting heavy guns upon the latter, it probably will be only a question of days before the fortress falls.

Still, there is not the slightest idea among Gen. Stoessel's friends that he will surrender, even if he should be ordered to do so.

It is hinted that if the fall of the fortress is shown to be inevitable, the Emperor may direct its surrender, in order to prevent the unnecessary sacrifice of the remnant of its brave defenders; but it is believed by those who know Gen. Stoessel best that he will make good his threat to hold out to the last man and cartridge in Port Arthur.

The ships in the harbor, it can now be stated on high authority, are in no condition to attempt to break through the investing squadron. The guns of the warships were long ago landed and the marines and sailors have been participating in the land defense. Some of the ships also have been injured by shells. If the fortress falls, it is understood the ships will be taken outside and sunk in deep water, in order to prevent the possibility of their ever being of service to the enemy.

The question of the advisability of reinforcing Vice-Admiral Rojestvensky's squadron with the Black Sea Fleet is again being agitated by some of the papers, notably the Novoye Vremya, which points out that, with the addition of the Black Sea vessels,

Rojestvensky will have a superiority which will insure victory over Admiral Togo's fleet. The Novoye Vremya calls attention to the fact that Japan was not one of the signatories of the treaty closing the Dardanelles, and asserts that if Japan had the power she might force an entrance into the Black Sea and engage the Russian fleet. Conversely, the paper continues that the differences between the two sides are irreconcilable and that they are not susceptible of amicable adjustment. He said, however, that he had no authority which would enable him to suggest a means of peace.

Shaffer is representative of the American Society of Engineers, which he believes should be the policy of the next four years. Judge Richardson said he was quite satisfied with the work of the American Society of Engineers.

Shaffer and Evans expressed appreciation of the French interest, though they regretted that they were unable to assist them. They said they had no way to suggest to him to help them. They will return home at once and report to the strikers.

Neither Shaffer nor Evans would attempt to forecast the result of the strike.

NEW YORK HOTEL CRIME.

MANY SHOTS FIRED AT ZEIGLER.

(BY THE ASSOCIATED PRESS—A.M.) DUQUOIN (Ill.). Dec. 2.—Guards at the Hotel Zeigler here were fired upon last night in a room in a hotel at One Hundred and Thirty-eighth street and Park Avenue. The shots were fired from a gun and pistol, which had been fastened carefully with a safety pin, while the other end was bound in a half-kneeling position, as though she had been strangled or had forcibly strangled herself by pulling on the wire.

HEPBURN COMMITTEE BACK.

NEW ORLEANS. Dec. 2.—The Congressional Committee under Chairman Hepburn has been reorganized.

The committee, which has been overwhelmed by the enormous amount of work done by the Hepburn committee, has been reorganized, according to the statement of Mrs. Chadwick's attorney, was only an incident. Other debts, however, were still outstanding four times that amount, they said, and for all they know may total a hundred times the sum named by the attorney.

SHANNON COPPER COMPANY.

BOSTON (Mass.). Dec. 2.—(EXCLUSIVE DISPATCH)—The Shannon Copper Company, operating mines at Clifton, Ariz., are to transfer the office of the corporation to New York, and move in immediately.

The annual report for the year ending August 31 shows a net earnings profit of \$150,000, of which \$100,000 was spent for improvements and construction. Copper cost is figured out at 12 cents per pound, exclusive of construction costs.

WALKING DELEGATE SUICIDES.

IN NEW YORK.

NEW YORK, Dec. 2.—Oscar Haas, formerly one of Sam Park's lieutenants in the Structural Iron Workers' Union, ended his life today by shooting. He had trouble with the union some time ago, and he has had no position as wage delegeate. He had been unable to get employment since that time, and was despondent.

MEN IN HIGH PLACES IN UNENVIABLE LIGHT.

PORTLAND (Or.). Dec. 2.—The climax in the land-fraud trial so far as the government is concerned, has been reached, and the law has but one more witness to be placed on the stand and then the prosecution will be through with its case.

She arrived at the crematory half dressed from grief, and, being without a mandibular bandage, he would accept the body for incineration, the police were told.

Up to their arrival Mrs. Wieland became hysterical, but clung to the body of her child, which she had carried in her arms, and was taken to the hospital station, however, the dead child was kept, and the mother was taken to better quarters at Long Island City, pending removal.

The funeral was seen in Albany, stated that Mrs. Wieland had telephoned to him her fruitless efforts to secure a special permit to bring in a necessary certificate, which had dispatched by mail, would, it was expected, end the tragic incident.

THE REST OF THE TESTIMONY.

THE NAME OF N. HASKELL WITHE.

NEW YORK, Dec. 2.—(AP)—The name of N. Haskell Withe, the lumberman, La. Mrs. Wieland's son, who was shot in the head, was given to the police by the coroner of the Bronx, who, as far as I am advised, has never been indicted and whose name has never been mentioned in connection with the alleged crime.

JUST A WORD ABOUT CHRISTMAS SHOPPING

You know how disagreeable it is to defer your trading until the last moment; you will find the stocks depleted and everything mussed and sorted over if you wait a day or two before Christmas. Just now, our stocks of Christmas merchandise are at their very best and the crowds are not so great as they will be later on. If you can't spare the money just now to make all your holiday purchases, you can make your selections, and by paying a small cash deposit, have the articles that you choose saved for future delivery. By so doing you not only have the advantage of selecting from stocks that are full and complete in every detail, but you save the trouble and worry of being jostled and crushed in the holiday rush which is inevitable later on.

U. S. WEATHER BUREAU, Los Angeles, Dec. 2.—Cloudy, scattered showers. Temperature registered 35° at 5 p.m., 35°. Thermometer for the corresponding hours showed off degree below normal. Relative humidity at 5 p.m.: 51 per cent. Wind: 5 a.m., northeast, velocity 2 miles; 5 p.m., northeast, velocity 3 miles; 10 p.m., northwest, velocity 4 miles. Rainfall past twenty-four hours: .35 inch; rainfall for year, 1.6 inches.

Weather Conditions.—The pressure is falling in California and in the Southwest, and the dry winds from the north extend over the Colorado Valley, while the cold, moist, unsettled weather, with misting fog or sprinkling rain, continues over the Tehachapi. High pressure is still dominant in the central and southern Rocky Mountains to the lake region. Zero temperature is reported from the Upper Missouri.

Perspectives.—Local forecast for Los Angeles and vicinity: Cloudy, unsettled weather to continue. High pressure from the north will bring a cold front Saturday morning.

SAN FRANCISCO, Dec. 2.—Weather conditions are moving in from the north. Calm fronts south of the Tehachapi, with misty rain, have fallen generally in the south. The pressure continues high over the northern half of the state, bringing a cold front which is about normal throughout California. Forecast:

California, north of the Tehachapi: Fair Saturday, cloudy, with light rain. South of the Tehachapi: Cloudy, unsettled weather to continue. High pressure from the north.

South of the Tehachapi: Cloudy, unsettled weather Saturday; probably showers light rain.

Los Angeles and vicinity: Cloudy, unsettled weather Saturday; probably showers; light east winds to continue.

Sacramento and vicinity: Fair Saturday, becoming cloudy at night; light north winds.

San Francisco and vicinity: Fair Saturday, becoming cloudy at night; light north winds. Forecast: Cloudy, with possibly showers in mountains; light east winds.

Arizona: Fair Saturday and Sunday.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Everhard Buys.

The purchaser of the \$25,000 property at Main and Fourteenth streets is M. W. Everhardy.

Buys on Valencia.

C. L. Hauser has purchased of E. Shishko, through Athlone Bros., 4212 feet, with frame apartment building, No. 839 Valencia street; consideration named, \$12,500.

Burglar Run.

The burglar of a rooming house at No. 2344 Buena Vista street, reported to the police last night that she surprised a burglar in her room about 7 o'clock, screamed and the burglar ran. Nothing of value was missed.

Raider.

The West Coast Planing Mill Company, on East Fourth street, has reorganized with A. H. Johnson as president and general manager, and Henry Lee as secretary and treasurer.

Tops on Trips.

A sixty-four-page booklet, just printed by the Times-Mirror Printing and Publishing Company, contains some interesting tips on suburban trips out of Los Angeles, and much pithy information from Southern California. The booklet is widely distributed by the Huntington Lines.

Meets at Mexico.

Today at 12:15 a special train, bearing the passenger agents of the Pacific Coast Association, will leave the Arco station at 10 a.m. for the City of Mexico. The annual meeting of the national association of traveling agents will be held. Several local railroad men will make the trip.

Chester Place Blaze.

Chester Place, a secreted area communicated to a friend in the back yard of Hon. Charles Sillett's residence No. 4 Chester Place at 1:45 o'clock yesterday morning, was set afire. The fire, in some house, the fire spread to the residence but was extinguished before any great damage was done. The loss will be slight.

Murphy's Meeting.

J. H. Brady, who long since became deeply interested in the gospel temperance work of Francis Murphy, will preside over his meeting tomorrow night in Blanchard Hall. The author of the famous temperance fire will be "Forgiveness," a topic which will give full vent to his personal experiences as a man who is under the spell of drink. The soloists will be Mr. Maxim, Mrs. Barnham and E. V. Lovell.

Macassars' Annual Dance.

The annual dance of the Macassars has for years been a marked success as one social event of the order that has always attracted a large crowd. It will be held tonight at Blanchard Hall, and though the crowd was not so large as formerly, on account of the weather, it was a most pleasant affair. All the members present and the dancing was kept up until a late hour, refreshments having been served throughout the evening.

Dance Broke Off.

A large pile holding the guy supports of the trolley wires of the Interurban lines at the corner of Eighth and Hill streets, snapped off at the stroke of a lightning bolt, and with a crash, dragging the live wires down with it. Death would have been caused had anybody been on the spot at the time, but policemen and bystanders ran quickly and stood by to travel until the dangerous obstruction was removed. The pole had rotted away.

LETTERS TO THE TIMES.

"The Times freely publishes the views of correspondents without holding itself responsible for writers' opinions. Be brief, write plainly, and to the point. In 50 words, on the average, is sufficient for the expression of an idea."

The Packing-house Question.

LOS ANGELES, Dec. 2, 1894.—[To the Editor of The Times:] In an article entitled "Fair Chance for Packers" in the issue of December 1st, the following is used: "The Hausers should not be required to spend a lot of money for moving their growing plant from the Sixth Ward where it gives promise of becoming an industry of great commercial importance." We have the honor to live within one block of the Hauser packing-house, and beg leave to correct the above statement as one likely to influence voters against the interests of the people of the Sixth Ward.

Unless by "growing plant" is meant some one of the many weeds that wave in the breezes on the Hauser tract, we have no objection to the statement.

As stated editorially in The Times, this plant was bought by them under the ordinance of 1890. The editor knows the people had the purchase was when workers began to haul bricks and to build fence. So violent was the opposition to the packers that at once stopped packing investigation and nothing has been done since. A pile of bricks and an unfinished fence stand in the same place as when the packers face no "opposition" at all. Their land is steadily increasing in value ever since the purchase.

We have the honor to live within one block of the Hauser packing-house, and beg leave to correct the above statement as one likely to influence voters against the interests of the people of the Sixth Ward.

Yours very truly,

THOMAS C. MARSHALL,
No. 216 East Eleventh street.
Recto of the Church in the Neighborhood.

[Unsung as Mr. Marshall advocates Justice in this matter, it is only fair to the Hausers to present the results of an investigation of the foregoing and similar statements that they have made. The yest question does not appear to be a serious menace, in the first place, as the growth upon the Hauser tract is due to the fact that the land is valuable. Again, what weeds there may be should hardly be charged to the account of the Hausers, but rather to the lumbermen who are responsible for its care and who should be condemned if it is not properly cared for, as well as to the fertility of the soil and the exuberance of the cili-

The Hausers maintain that they have gone to their proposed new building and been offered a lease of property made by residents in that vicinity, and that the fence above referred to, and a \$30,000 packing-house, will be built on the same site. This property had been no objections raised at the time the brick for the foundation were hauled to the ground. Does not this go to prove that the question is not, while the Hausers admittedly could have gone ahead with their plans, within their rights?

The packers are to be utterly regardless of the good people of the Sixth Ward nor appear to be utterly regardless of what was apparently a sincere and upright man.

If one packing-house is permitted to do business within the city limits, it is only fair that others should be allowed to do the same.

Let us hope that the packers to the Sixth Ward will not be guilty of such a course as to drive other out of business and force them to go outside the city limits, which would be almost the same thing in effect.

Owing to the great import given to the three packing companies involved in it is not at all probable that the total exclusion amendment will pass single-handed. Therefore, the packers appears to be to support the amendment admitting packing-houses to both the Eighth and the Sixth wards.

The Times.

The "Yellow Peril."

LOS ANGELES, Nov. 22, 1894.—[To the Editor of The Times:] Relying to "A Republican" in Saturday's Times, permit me to say I too am a Republican, born in the United States, and raised here, and that I am a member of the party. The packers to the Sixth Ward are to be held in contempt of the law, and unfair discrimination, and a direct injury to the city's industrial welfare.

Moreover, to restrict the packers to the Sixth Ward, would offend our ship and injustice to the Hausers, for their competitors practically control the situation in the Eighth and Ninth wards, and allow the packers to the Sixth and Eighth wards, and allow the other packers to remain in one or both of those wards, and to be compelled to pay more for labor and right courses in the premises appears to be to support the amendment admitting packing-houses to both the Eighth and the Sixth wards.

Him as Unchristian.Ladies Vote Not to Denounce,
but to Send Tracts.

Another committee of insulted women was appointed yesterday to call on Rev. G. T. Dowling and demand an explanation of his flings at women last Sunday from the pulpit of Christ Church.

Arrangements were also made to send Dowling leaflets and tracts of an unchristian nature.

This second committee of women will call upon Dr. Dowling in the name of the County Institute of the W.C.T.U., which met yesterday.

Entitled, by lies and false promises,

from a happy home among the Alps of Switzerland by a man whom she had never seen; obliged to marry that man, who was forty years her senior, the alternative being starvation or—disease; taken to a land and forced to do his drudgery and stand his abus, Mrs. Frances Weeks, a widow, and loving by nature, at last rebelled.

Two weeks ago last night she left the man who had trapped her into a marriage, and has been ever since a fugitive.

Last night the devil in the man, the latent iniquity which had caused him to violate the young woman, asserted itself and he shot her.

He then because Mrs. Frankie Fox, who had married his wife and had given her emoluments, demanded

for help to shoot her too, inflicting a wound that is almost certain to result in death.

Henry Marcoux, a harness maker aged nearly 70, is the murderer. He recently disgraced his tries to leave from the city, but his creditors laid his claim to remain in hiding in an obscure place for days if necessary, but under the pressure of circumstances he returned to the police and gave himself up. Hammett the police got on his trail soon after the murder, and within three hours he had him.

There have been murders in higher walks of life, murders in which more prominent people were involved, but there was never a murder in which more prominent people were involved, the laying of plans, selection of time and place, and certain execution, than that committed last night.

The murderer planned his crime and may try to strengthen his plea by showing what of diabolical cunning he took the life of the innocent woman who had been his victim.

There was no cunning about it, just as might be expected from a maniac, but when Marcoux was arrested he showed him.

The scene of the tragedy was in the rear porch of a two-story frame dwelling on N.W. 21st and Third. Two numbers to the eastward is the "Three Bee" restaurant conducted by Charles Fox and his wife, Frances. Weeks ago Mrs. Weeks applied to Mr. Marcoux and secured employment. She explained that her husband's business, harness making, was not sufficient to keep her and her two children, and she had become a hard worker and made friends. From time to time her husband called at the restaurant, but he made no demands on anyone, her.

To Mrs. Weeks, she said, "I think we should rather send a committee to Dr. Dowling."

One of the other ladies suggested that Dr. Dowling was in need of information and light.

Miss Esther Phillips Boiler spoke in favor of this idea. "We have many leaflets and tracts that we might send to Dr. Dowling," she said.

And her suggestion was adopted.

Mrs. Boiler and Mrs. Griffith will communicate with Dr. Dowling.

The other committee appointed from Buffalo, N.Y., to the main street beat him, and he was attracted by the appearance of a woman calling for policeman, from the apartments of Mrs. Nettie Howard over the Burbank Theatre. He ran upstairs and in the rear of the room, and he was promptly captured by the policeman.

It happened to enter one of her rooms and surprised Hanson in the act of placing a number of small articles from bureaus, in a chafing-dish, which was quickly covered and hidden. There was no way for the thief to escape except by jumping from a second-story down onto Main street. He had little time to think about his hideousness, however, because he was seized by the police.

Yesterday Mrs. Bertha Hirsch-Bauer, a widow, reluctantly left her support, coming out with a retort that exposed the pharisee Dowling's ignorance and lack of logic. She said:

"CORNEILLE HIM."

When Dr. Dowling was accused of all the wickedness of the world to the women who advocate political equality through the ballot, in this he says "that without a single exception every one of those wicked and tyrannical men were born women, and the probability is that if she had remained at home, had been a better and more womanly mother, she would have had many more sons." I am amazed that a gentleman and a scholar could permit himself to make a sweeping assertion without neither historical nor psychological basis.

"For you, men, were born of women, and you bear the stamp of womanhood to the world, while this agitation for the ballot arose in 1848. Now, is it possible to believe that up to that time the number of nervous wrecks among children to the impure and the oversexed was not greater than that among the mothers, who are to the oversexed of girls, what the mothers are to the oversexed of men?"

She said that no one knows what harm comes from the pernicious habit of tea-drinking, while she, leading a life above their sweethearts, leading, she said, to impure thoughts and making impossible the sweet whole friendship that should exist between little girls and their mothers.

Mrs. Esther Phillips Boiler dealt with the subject. "How the Franchise Injures the Home" in quaint and original language, saying that the short, short story filled with delightful humor.

The programme of the evening was: Disciples, Rev. F. Fields, "Bones of the W.C.T.U.," Mrs. Hester T. Griffith, "music, Swedish Quartette; debate, "Reverence for Government is a Stronger Power than Heredity," Dr. M. E. Carmen, Dr. M. J. Lightner, "Liquor of Non-use," Dr. Tomasso, Rev. O. T. Nichols, field secretary, Pacifica Alliance.

The Bank of Hollywood, having been robbed, was closed.

The sound of the shots attracted several men to the scene, one of the first being Fox. He found his wife lying part in the floor and part in the water closet in the yard and partly outside. She had been shot twice at her wife without saying a word. She lay against the wall and groaned down. Her eyes were open and she began screaming for help. Then he came back and shot her again.

"DO YOU KNOW WHO SHOT YOUR WIFE?"

"Yes, it was Marcoux. I know him well."

"Do you know you are badly hurt and you will probably die?"

"Yes I will die and I know Marcoux shot me and shot his wife," responded the suffering woman.

Before Mrs. Fox went to the operating table there was a pathetic leave-taking between husband and wife.

"Did you love me and then added brokenly, "I'm dead."

ONCE DEAD, ONE DYING.

Underground Flow of Perris Valley.
Important Decision in Newport Irrigation
Suit at Riverside.*

(SPECIAL CORRESPONDENCE OF THE TIMES.)

RIVERSIDE, Dec. 2.—Judge J. S. Noyes today handed down his decision in the famous Newport vs. Imperial Water Company suit, thus confirming the right of the defendant corporation to withdraw water from the Perris Valley. It is one of the most important decisions ever made from the fact that it is the first of its kind of importance on the diversion of underground waters that has been tried in the State since the famous decision of Associate Justice Shaw of the Supreme Court, in the Kata vs. Walkinshaw case, tried about a year and a half ago.

To whatever rights the plaintiffs may have, the premises they seem to have mistaken are really. Their action, if one they have at all, should, under existing conditions, be for damages. The most that can be claimed is that the defendant, or one of the defendants, has accelerated the action of the dry seasons in lowering the plane of saturation. It appears apparent that the water in the Perris Valley today can obtain all the water requisite for any purpose, irrigation or domestic. The extent of the damage unknown, however. The injury if any, to the plaintiffs, is the increased cost of lifting water to a greater height, and a question of whether water such as would warrant injunctive proceedings, but a mere diminution of water, a lowering of the general level of the ground water, is not of the same nature, and is not of sufficient magnitude and consistency as to the proper remedy. Yet, the nature of the facts, where the facts as well as the law coincide with the evident situation as here presented.

WHAT EVIDENCE SHOWS.

The following ultimate conclusions are fully justified by the evidence. That the defendant is not innocent; that the water is not all taken by defendant, that the defendant does not threaten to appropriate and take the water, that it has not even the facilities for taking the water, that the defendant can only lower the water plane temporarily, and that the dry seasons of the five years past have in the main caused the general lowering of the water plane in Southern California. The water in the Perris Valley has never fed or sustained surface water, the effect of the "dry" and "wet" seasons on the water supply, use the pumping operation of defendant, and the effect of the water volume, and other less minor problems become inevitable in the controversy.

The law, following in remedial application, the ultimate conclusion of fact as finally determined upon by the court, will, I trust, be correctly interpreted in defining the right of the defendant to withdraw water from the valley.

The trial of the case, represent the rights of the entire community of the city of Corona. Attorneys Abel, Husk and Wolfe of San Bernardino represented the plaintiff in the trial. Livingston & Adair of Riverside, E. W. Freeman of Los Angeles and Judge C. M. of Sioux City, Iowa, the defendant.

The decision of Judge Noyes is a lengthy one, in part as follows:

QUESTIONS AT ISSUE.

The questions to be passed upon by the court are of fact and law—of fact as to the geological formations and conditions of the Perris Valley and of the water supply of the valley, and of the actual condition of the underground water resources, the cause and extent of soil saturation, the fall and flow of the subsurface water-plane, the effect of the "dry" and "wet" seasons on the water supply, use the pumping operation of defendant, and the effect of the water volume, and other less minor problems become inevitable in the controversy.

The law, following in remedial application, the ultimate conclusion of fact as finally determined upon by the court, will, I trust, be correctly interpreted in defining the right of the defendant to withdraw water from the valley.

TRIES TO HOLD WIFE'S CORPSE.

BUT MRS. DEWEY'S REMAINS WILL BE LAID AWAY.

Almost Harrowing Scene at Upland in Ugly Fight for Woman's Estate—Court Holds Judge Killed by Cars Was Guilty of Contributory Negligence.

SAN BERNARDINO, Dec. 2.—Only the absence from town of Edgar Dewey's attorney prevented a harrowing scene at Upland yesterday afternoon, when Mrs. D. D. Harkness of the Franklin estate, who was in charge of the remains of Mrs. Dewey, her sister, to Chico for burial. Dewey had tried to claim the body, but meeting refusal, came to town to secure an injunction preventing its shipment. His attorney, H. W. Nisbet was in pose, and the corpse is now at the place of interment and will be laid to rest tomorrow morning. Dewey is the man who, after refusing to live with his wife, now will contest her will to secure part of her estate.

GETS NO DAMAGES.

The damage proceedings instituted two years ago against the San Bernardino Valley Traction Company and the Southern Pacific Company, by the Judge, Irvin M. Knobell of the late court of the killing of Judge Stratton and a valuable racing horse in a collision with a team of horses and motor-car figures ended this morning by a decision handed down by Judge Bleedorn of the Superior Court holding tributary negligence, which the court holds was the prime cause of his death. It is alleged that at the time the accident occurred the man driving the traction car and the engineer of the motor were racing. The E. P. Shaw grave on Stermeria, with the idea of subdividing it, had been removed. The road on which the road along which Stratton was driving his high strung horse, which ran away and wheeling about the vehicle was struck by the traction car, and the horse, breaking from the road, was struck by the traction car, and the engine. Stratton died next day and the administrators brought suit against the Traction Company for \$2000 against the Southern Pacific for the loss of the horse.

SAN PEDRO. Dec. 2.—Assistant
Secretary of the Navy Darling, accom-
panied by Capt. Hamlin, Min. Lieut.
Greer and several members of
the Los Angeles Chamber of Commerce
and their wives arrived early this
morning on a special Salt Lake
train. The visitors went aboard the
steamer "Wadsworth" and headed
up the coast. The company made
a long and interesting trip, making
such a rapid coat of mail about 8:30
all, and it's easy to do.
